WINE

Our talented sommelier and wine director Josh Eisenhauer has built an impressive collection of both exclusive wine makers and more unknown producers from the area. We have over 500 labels in our historic wine cellar from the 17th century. A must during your stay is to get Josh's special recommendations, as well as to participate in one of our popular wine tastings.

VINEYARD

At Villa La Madonna we grow the native Barbera grape and Cabernet Sauvignon on the beautiful hills around our farm. We look at our vineyard as an extension of our garden. Additionally, we use it to produce a full wine range of approximately 10 000 bottles of spumate, rosato, and red each year.

OUR OWN WINES

We use the Barbera grapes from the vineyards surrounding the hotel to produce our sparkling, rosato and Barbera D'Asti wines. We also produce a dry white wine from the local arneis grape in collaboration with the Duilio Dacasto winery and a sweet Moscato D'Asti together with the Marco Capra winery. Additionally we offer a more exclusive limited edition line of Langhe Nebbiolo and Barolo, both produced in collaboration with the Mauro Molino winery.
